The next meeting will take place on 19 June from 9 to 11 a.m.

1) Update of the MOOC videos

The various videos to be made for the MOOC, by theme and by type of player, are translated into French and English as they are produced.

An excel file is shared to keep track of production progress.

Reminder: the "understanding" stage consists of interviews with professionals and young people who are victims of discrimination in the areas covered. The aim is to open up the discussion by broadening the interview questions to include subjects that have not been dealt with much elsewhere (e.g. disabled parenting, disability and sexuality....).

2) Quizzes for each module

They are implemented with the H5P application.

Questions produced by Aux couleurs du DEBA are integrated directly into the site via the dedicated Word press plugin. They are available in French and English.

The questions asked by Stando LTD are answered from their lumi education account. They can therefore be accessed via a link that redirects to lumi. They are translated into French by DEBA and integrated into the plugin.

3) Updating the website and the mooc

The bugs causing problems in the language versions have been resolved.

The problem of certain images not appearing on the screen has also been resolved, depending on the version.

Finally, the problem of the H5P versions used has also been resolved.

4) The news letter

From the outset, there was a delay in the distribution of the newsletters. (See the minutes of the 2024 meetings).

In fact, instead of having 5 newsletters, we will be producing 4.

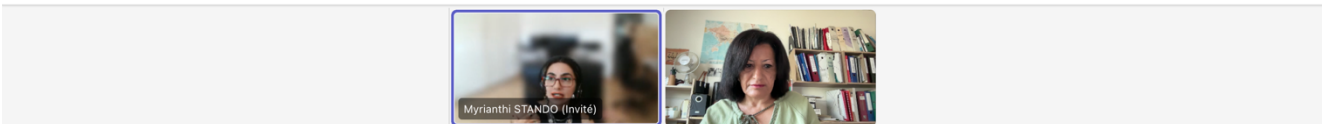

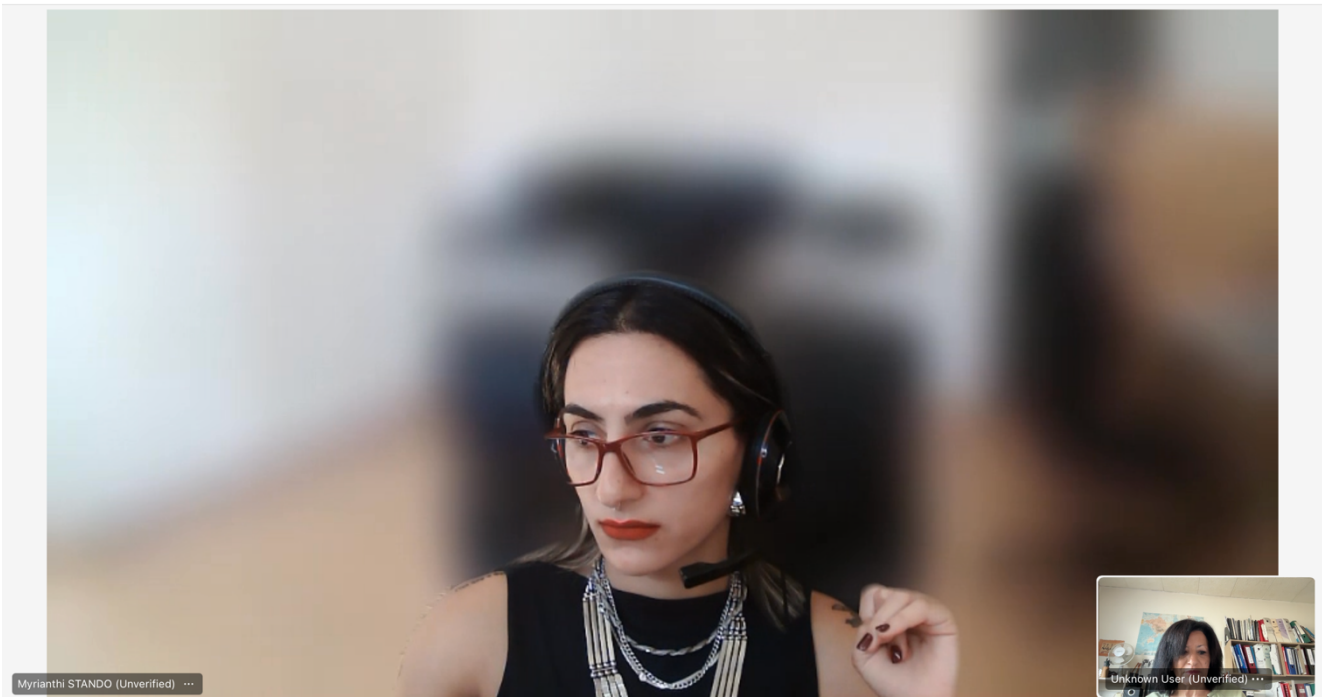

The first was produced and broadcast in October 2024.

The second will be produced and broadcast by the end of May 2025.

The third will take place in autumn 2025.

The last will be distributed at the end of the project, in January 2026.
