

MINUTES OF THE ONLINE MEETING OF 24 JUNE 2025

The next meeting will be held on 04 September from 9 to 11 a.m.

Link to meeting: [DIVINEF AND INDICA ONLINE MEETING | Microsoft Teams | Meetup-Join](#)

1) **Conducting interviews**

In France: participants with disabilities were interviewed about their lives in general, and in the field of education and sport in particular.

The final editing of the videos will be done by the young people themselves so that they can improve their skills in this area.

The young people constructed the quizzes associated with their story, expanding on what they wanted the learner to remember.

(e.g. educational and psychological support for people with disabilities, accessibility of premises,).

These quizzes will be built on the website's H5P plugin in French and English.

For all the thematic modules ("inclusion", "disability", "gender equality" and "ethnic equality"), the provisional list of interviews is ready (with discriminated groups as well as with experts and professionals).

Appointments for interviews will be made from the end of June until September/October 2025.

In Cyprus: the construction of the content of the mooc continues, both in terms of the interviews and the Quizzes and other learner engagement activities.

The partners are continuing to complete the excel file listing the videos to be made by theme.

2) **Additional resources for the "find out more" tab**

The partners have agreed to promote teaching resources that they have created as part of other erasmus projects and which are fully relevant to the MOOC.

This will not only make these resources visible and enhance their value, but also show the bridges that can be built between each erasmus+ project.

Of course, other external resources will be shared on the site.

3) **The mooc test**

It will take place in each country from mid-September to the end of October 2025.

A questionnaire will be co-constructed and shared over the summer.

Each thematic module and each chapter (Discover, Understand, Analyse, Question) will be tested.

The anticipated panel of **testers** (adult professionals and/or volunteers) is **10 people per module**.

Ideally, there would be 5 tester profiles:

1. Employees (all statuses)
2. Volunteers
3. Student/adult learner
4. Experts/ elected representatives
5. Young adults (whether or not they are victims of discrimination)

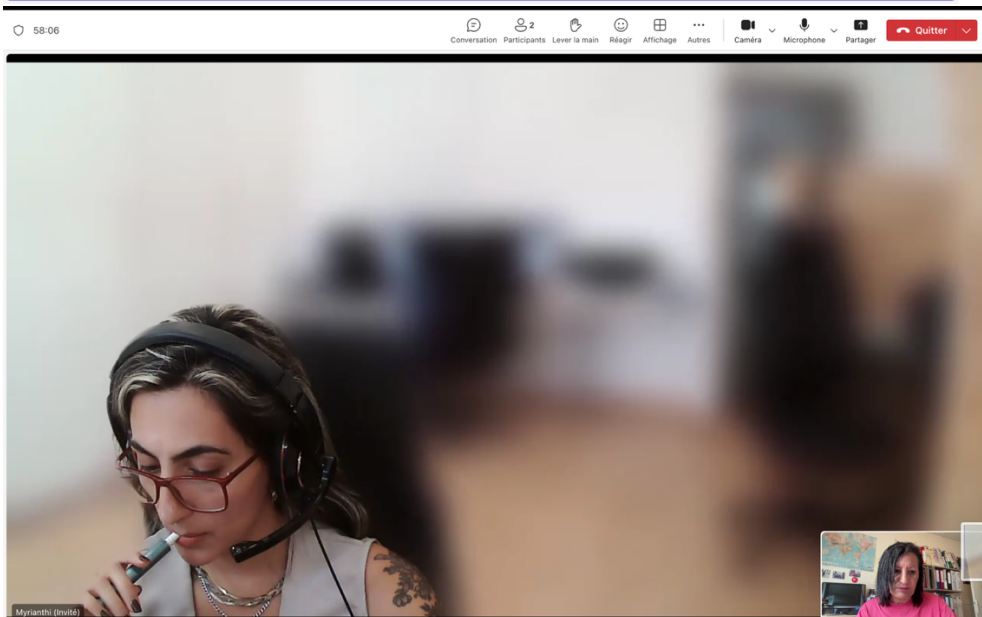

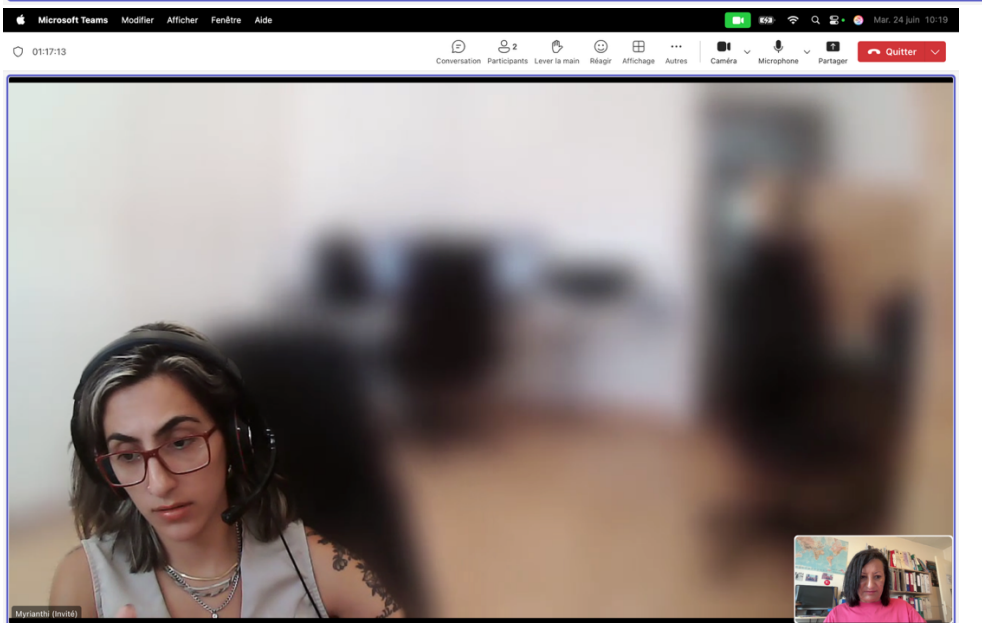

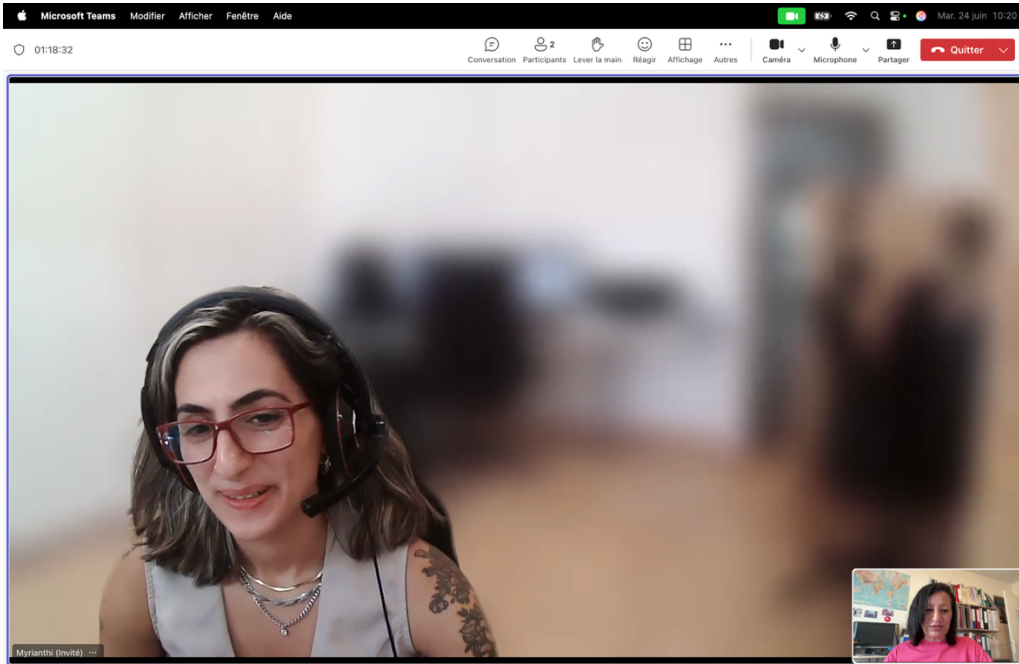

Module	Chapter	Minimum number of testers per country
